

Self Dispatch Jobs

Drivers can self dispatch from POV or from OneView Mobile.

OneView Mobile Self Dispatch Job

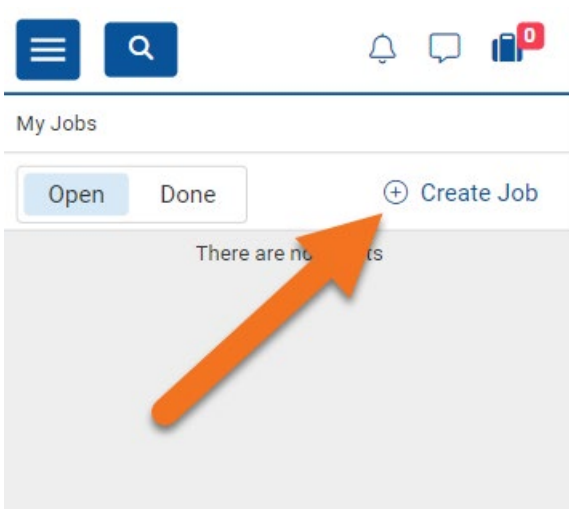

Drivers and other users with Jobs permission can self dispatch directly from their phone in OneView Mobile.

Steps:

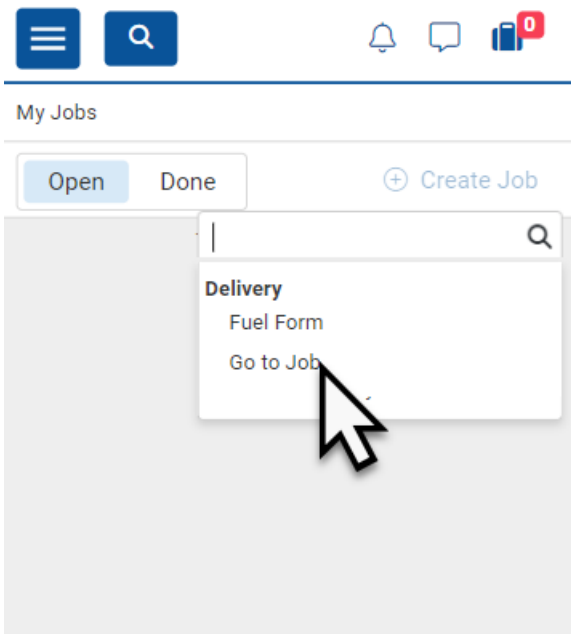

1. Tap the suit case icon at the top of the screen.

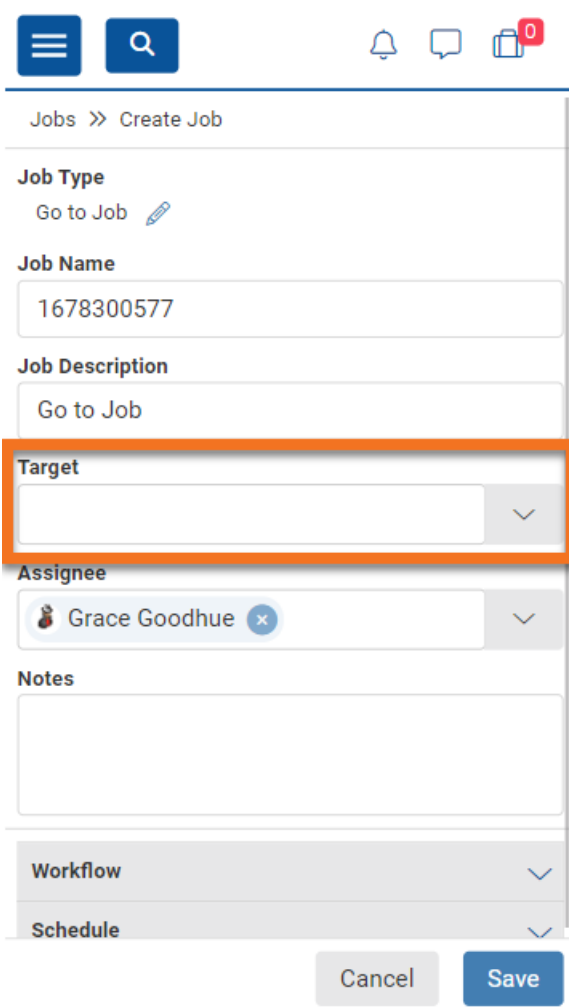

2. Choose Create Job

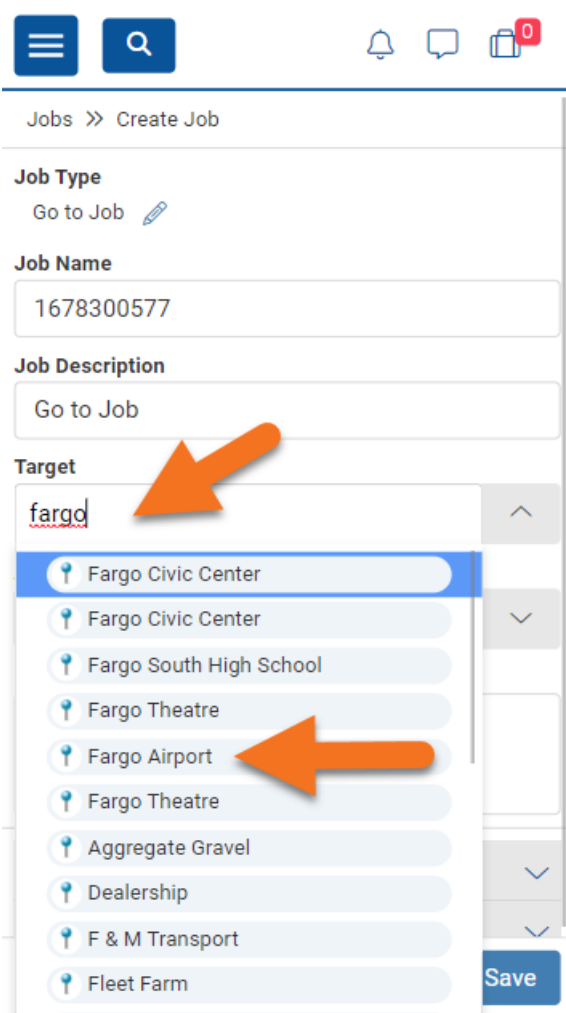

3. Choose the template that you are going to use from the dropdown list of job types

4. You can customize the Name of the Job, the Description of the Job if you want. At minimum you just need to add a target. Type in the target field the name of the location you are going to.

A screenshot of the 'Create Job' form. The form has a header 'Jobs >> Create Job' and a 'Job Type' dropdown set to 'Go to Job'. Below are fields for 'Job Name' (containing '1678300577'), 'Job Description' (containing 'Go to Job'), and 'Target' (which is highlighted with an orange border). The 'Assignee' field shows 'Grace Goodhue' with a remove button. There is a 'Notes' text area and two expandable sections at the bottom: 'Workflow' and 'Schedule'. At the very bottom are 'Cancel' and 'Save' buttons.

5. After typing the name of place you are going, there will be a list of locations matching the words you've typed. When you start seeing the one you want, tap on it to select.

Jobs >> Create Job

Job Type
Go to Job 

Job Name
1678300577

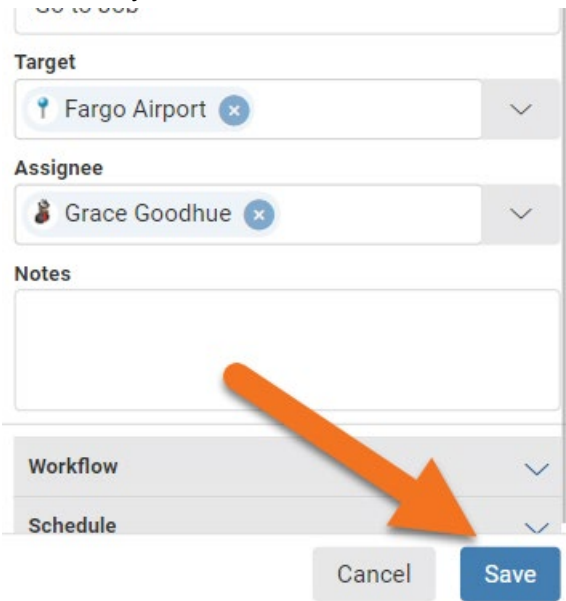

Job Description

Cancel Save

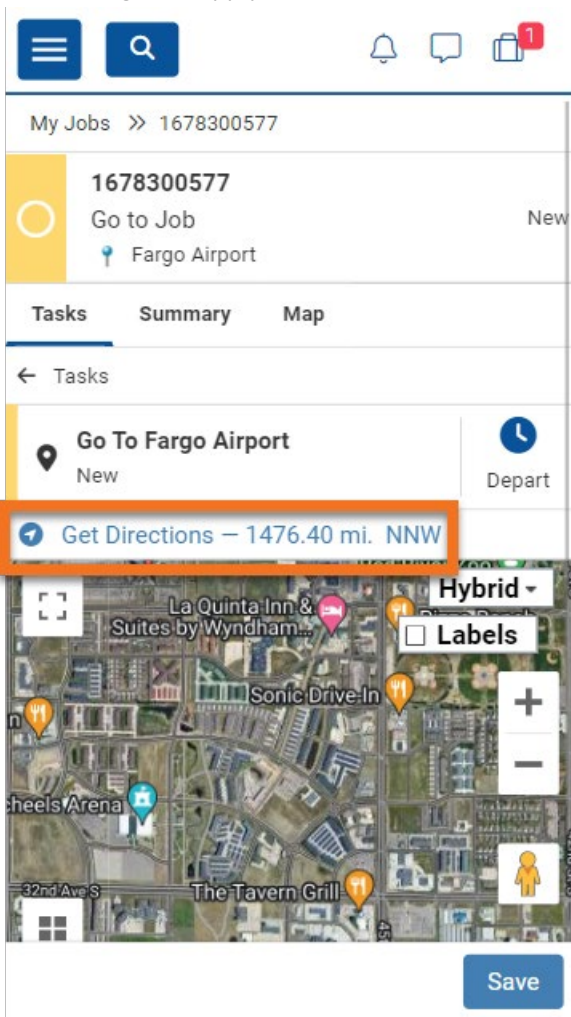

7. You will see the job listed on your jobs page.

8. To start the Job you can simply tap Depart. However if you need directions to the location, tap on the main part of the job to open.

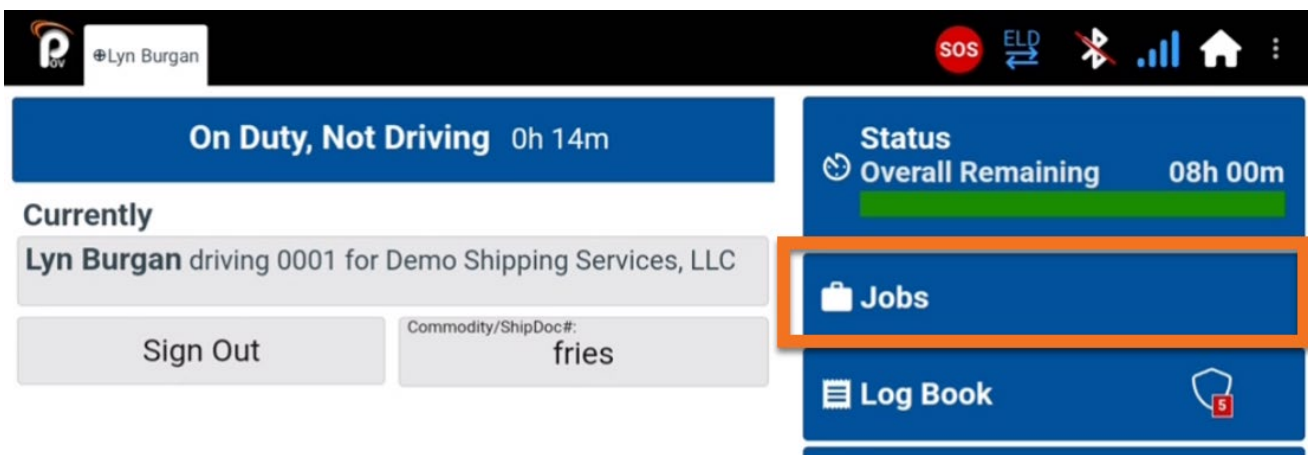

9. There you will see a Get Directions or Navigate link. Tap this link to open your phones navigation application list. Choose which navigation app you want to use and this location will be sent to your navigation application.

POV Self Dispatch Job

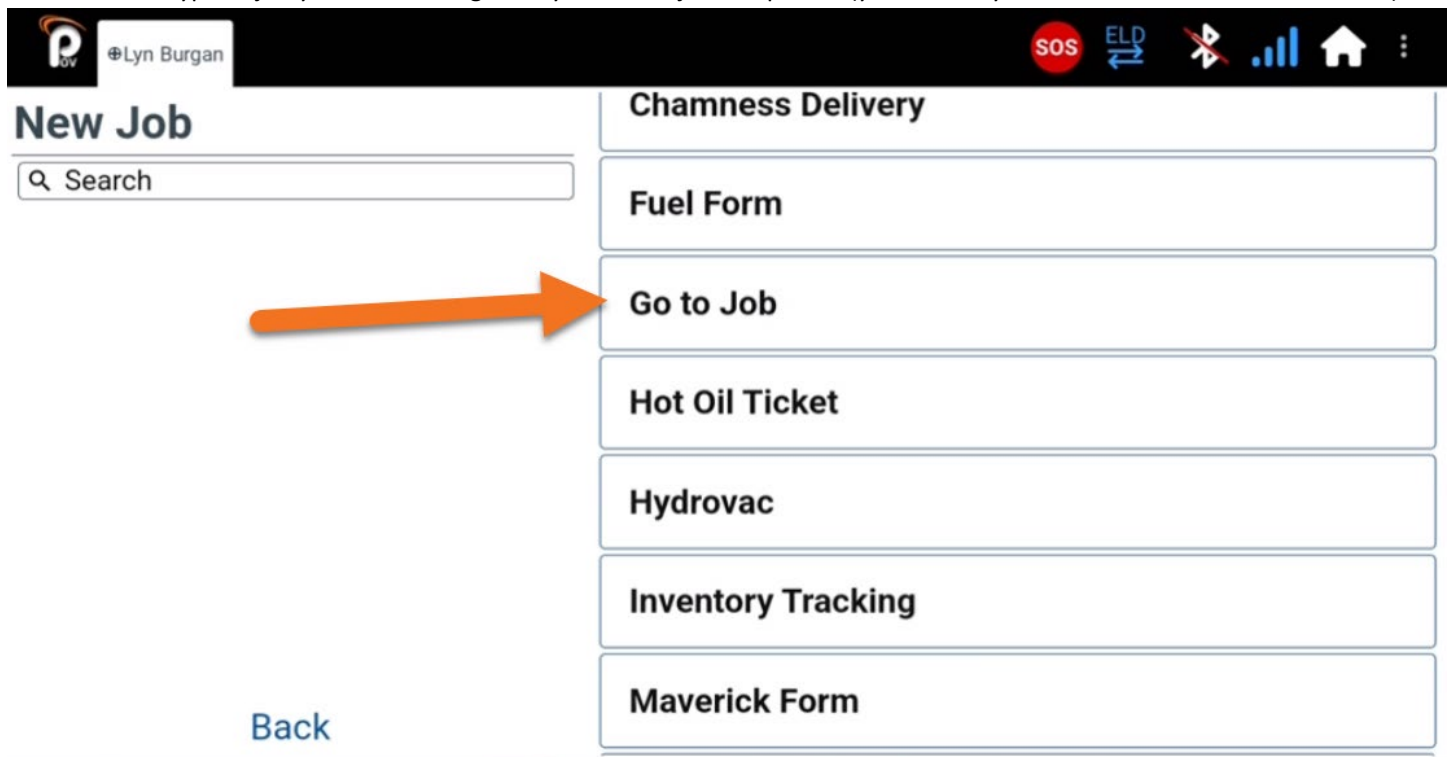

1. If you need to add a job directly from your tablet, tap on your Jobs tab

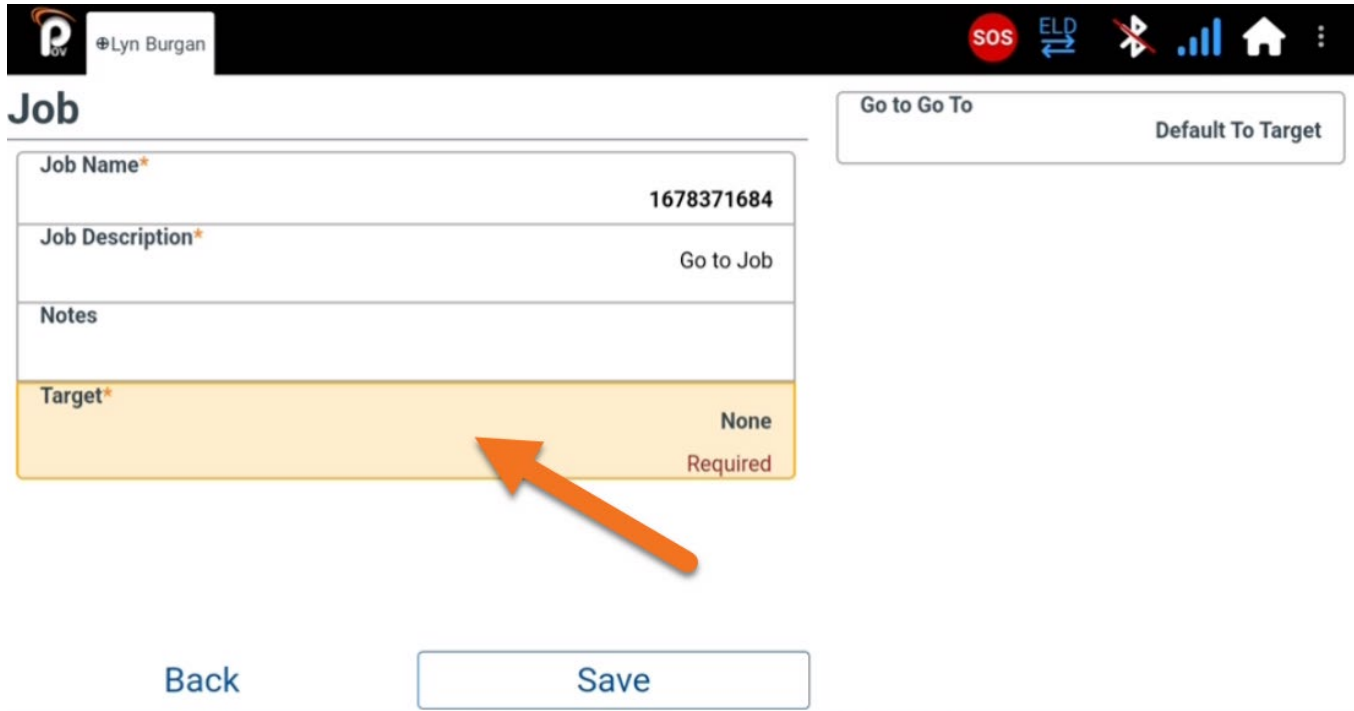

2. Then New at the bottom of the next page.

3. Choose the type of job you are creating from your list of job templates, (your list may differ from the screenshot shown).

4. The Target field must be entered to save this ticket (yellow field). Other fields are optional and you may edit them or leave them as is (white fields).
